

## **Graham Cave State Park and Mid-East Section of Katy Trail State Park**

Public meeting recap

Sunday, Oct. 19, 2025 at the Treloar Elevator Party

We held an open house style meeting in conjunction with the event. The event had over 100 participants, but the meeting only had four people sign the sign in sheet.

We invited four state elected officials, and Rep. Bruce Sassmann attended the event, but technically not the public meeting.

We also invited four local elected officials and none attended.

We also invited six stakeholders and none attended.

Magnificent Missouri was there taking photos and videos for their website and magazine.

The information shared with the public was 10-year attendance data, information about any large events this past year, projects accomplished this past year, and upcoming projects.

There was no public comment or discussion.
