Cape Girardeau, Missouri**

## Introduction

The Missouri Historic Property Inventory is an architectural survey that is used to document not only existing information about the resource of historical interest, but of building's style, materials, and features. With this information the historical significance of properties or neighborhoods can be determined. This inventory also can be used as a guide for future historic research or to create a historic district in the town. This inventory is based on the Secretary of the Interior's Standards and Guidelines of Evaluations.
