ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.
Originally constructed by Alright Parking in 1970-1971, the parking facility was remodeled c. 1990s. Originally, the parking lot featured a restaurant below grade. The footings of the structure were designed to carry additional floors of retail space if need in the future.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.
Piland and Norris. Kansas City Historic Resources Survey Form. April 1994. Landmarks Commission, Kansas City, MO

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.
Located in the Central Business District of Kansas City south of the W. 9th Street/Baltimore Avenue Historic District and west of Missouri Bank, the owner of the site.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.
Surface parking lot with below level parking. The west façade features an entry to the underground parking with an exit on the south façade.

Description:
North and East façades view facing southwest

Insert photograph of primary structure on property.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

It appears that this building was originally built for a private garage and motor freight station. The east section of the building was used as an office, while the rear of the building housed a motor freight station for 15 cars. In the past few years, the property was the location of a comedy club.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

Sanborn Map Company, 1951, Vol. 1, Plate 52.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Located in an area of light industrial and commercial properties north of Holy Rosary National Register District.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

The main façade faces east. The main entrance is centered. Fenestration is industrial sash with brick sills. The western section of the building has a false storefront at the west façade. Some of the windows openings have been infilled.

Description:
West and South facades, view facing northeast.

Insert photograph of primary structure on property.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This building did not appear in 1896 Sanborn; however it appears in a 1906 edition. In a 1951 edition it was noted that the building was the location of a restaurant. This building appears to be significant under Criteria A and C in the areas of Commerce and Architecture. Designed in the Two-Part Commercial Block style, 315 Cherry appears to be the sole example of this architectural expression in the neighborhood and remains in good condition, thereby retaining its historic integrity.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

Sanborn Map Company, Vol. 2, 1909, Plate 152.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Located in an area of light industrial and commercial buildings. To the south is the Holy Rosary National Register district.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

The main façade faces west. The original canted entrance has been modified over the years. First story fenestration has been mostly infilled. Second story window units are one-over one, double-hung, sash with brick surrounds. The cornice features brick corbelling set above brick stringcoursing.

ARCHITECTURAL/HISTORIC INVENTORY FORM

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This freight house was constructed by the Chicago-Alton Railroad Company c. 1880. Octave Chanute, the engineer for the first Hannibal Bridge, Kansas City (the first bridge to span the Missouri River; opened August 14, 1869), was the chief engineer for the Chicago-Alton Railroad and was responsible for designing and constructing the stockyards for Kansas City and Chicago. He was also place in charge of building several railroad lines into Kansas. Quite possibly, Chanute was the architect for this building. The Chicago-Alton Railroad Company Building appears to be eligible for listing in the National Register of Historic Places under Criterion A for its association with this railroad line, important to the development of early Kansas City. It may also be one of the few structures remaining in Kansas City designed by Octave Chanute, thereby placing it among the rare, surviving examples of this important engineer's work.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

The Historical Guide to North American Railroads. (Waukesha, WI: Kalmbach Publishing Company, 2000). Sanborn Maps and Historic Atlases of Kansas City, 1896, 1909.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Located just north of Veolia Energy and south of the Missouri River and the KC Terminal Railroad tracks. The Heart of America Bridge is directly to the east of the building.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

The main façade faces west. A centered single-leaf entrance is flanked by industrial sash windows. Similar fenestration, separated by brick piers, is located on the secondary facades. A gabled, similarly styled building is connected to the east.

ARCHITECTURAL/HISTORIC INVENTORY FORM

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story concrete block building was designed by architect George Dandson and constructed by DeTrue for John Stark.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

Building Permit No. 20911, Kansas City, MO

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Located in an area of light industrial and commercial buildings. To the north are the Missouri River and Kansas City Terminal Railroad tracks.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

The main façade faces east. Fenestration has been infilled. A security fence is placed at the southern boundary. The property also includes the Quonset Hut located directly to the east (see separate inventory form).

Date:
May 27, 2012

Description:
North and west facades, view facing southeast

Insert photograph of primary structure on property.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This building is illustrated in the 1939 Sanborn Map as the location of a wholesale grocery business.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

Sanborn Map Company, 1939, Vol. 1, Plate 50.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Located to the east of the Old Town National Register District and to the south of Cold Storage building, listed in the National Register.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

It appears that this masonry building has been drastically modified over the years with a molded, concrete facing at the north façade. Two overhead doors are located at the far west bay of the north façade. It was original designed with steel trusses and a tile brick face. Floors are concrete.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.
The property was originally the location of a Motor Freight Station and office. The building to the east was affiliated and used as an auto repair shop. The Motor Freight Shop may have been remodeled in the recent years with face brick.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.
Sanborn Map Company, Vol. 1, 1951, plate 52.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.
Located in an area of light industrial and commercial buildings.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.
The main façade faces south. An off-centered entrance features a single-leaf aluminum and glass door reached by a series of concrete stairs and sheltered by a metal canopy. Fenestration is fixed with brick sills.

Insert photograph of primary structure on property.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

The Kansas City Power and Light Company Grand Avenue Power Plant used this building as a "Store House." It was built by KCPL when they purchased the Metropolitan Street Railway Company Power House to be used as their new facility. This building appears to be eligible for listing in the National Register of Historic Places under Criterion A for Industry. Its association with the Power House located directly to the east as a main auxiliary building continued through the duration of KCPL's ownership. It remains in good condition and retains its historic integrity.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

Sanborn Map Company, Kansas City, MO (1939, Vol. 1, Plate 45).

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Located to the west of the historic Metropolitan Street Railway Powerhouse, just west of the Grand Boulevard Bridge. To the north is the Missouri River and the Riverfront Trail. The Kansas City Terminal Railroad tracks are located to the north, as well.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

A canted entrance is placed at the northeast corner of the building. Fenestration is industrial sash. Bays are divided by brick piers. Corbeled brick stringcoursing articulates the upper story.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

The head house (managing facility) was constructed in 1928 for the Kansas City Power and Light Grand Avenue Power Station and connected to the conveyer belt that stretches east to the power plant. The small brick building placed to the west of the head house was used as an office. The lighting tower and tanks were originally built for Trigen Energy Company. It appears to be eligible for listing in the National Register of Historic Places under Criterion A for Industry. It is linked to the large Power House directly to the east and provided office space to run the bridge to the facility.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

Sanborn Map Company, Vol. 1, 1939, Sheet 45. Also, Veolia Energy, PR Department and Building Supervisor.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Located to the west of the historic Metropolitan Street Railway Company Powerhouse and to the northeast of the Old Town Historic District. Grand Boulevard Bridge is directly to the east; the Missouri River is directly to the north.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

The 1928 head house is constructed of reinforced brick walls and features a concrete floor. It appears from information illustrated on the 1939 Sanborn Map that the smaller office is constructed in a similar manner.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

The Metropolitan Street Railway Power Plant appears to be eligible for listing in the National Register of Historic Places under Criteria A and C for Industry and Architecture. This Romanesque Revival building was constructed for the Metropolitan Street Railway Company in 1903-1904 by Kansas City builders Taylor and Winn Construction. In 1929, the building was purchased by the Kansas City Power and Light Company. When constructed, the powerhouse provided power for Kansas City's expanding streetcar system. *The Street Railway Journal* issue of 1903 called it one of the largest electric railway power stations under construction in the United States and probably the largest outside New York City. It was constructed only 22 years after central station electric service was first available in Kansas City, and it represented the revolution in people's lives by the advent of electricity. When KCP&L owned the building, it became known as the Grand Avenue Station. Steam was generated to heat some 200 downtown buildings.

Files, Kansas City Public Library, Missouri Valley Special Collections. *Sanborn Map Company*, 1896/1907. State Historical Society of Missouri-Kansas City. *The Street Railway Journal*, 1903.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Located to the east of the Old Town Historic District and to the south of the Missouri River near the Grand Boulevard bridge.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

The building is articulated with prominent arched bays and multipaned industrial sash fenestration (original) set in recessed brick surrounds crowned by brick, segmental arches. Each bay is divided by large brick piers. The attic level features segmental arched fenestration. Two mammoth brick chimneys crown the facility. A brick addition is located at the west façade. As originally illustrated in a 1896 Sanborn Map (with a 1907 overlay), the roof was designed with multiple coal bunkers with a capacity of 12,000 tons.

ARCHITECTURAL/HISTORIC INVENTORY FORM

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This property appears to be eligible for listing in the National Register of Historic Places under Criterion A for Industry. This building originally was used as a convertor station by the Kansas City Power and Light Company and was a vital component for KCPL. This light industrial building replaced the Ebenezer AME Church that was at this location as early as 1896.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

Sanborn Map Company, 1939, Vol. 1, plate 52. Kansas City; Building Permit No. 91604, Kansas City, MO.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Located in an area of light industrial and commercial buildings. Several vacant lots are adjacent to this property. The Riverfront Heritage Trail is to the west.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

The main façade faces west. A single-leaf door is located to the south of a rolling, overhead door. Original fenestration is industrial sash.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This Transit Metro Center is the main metro center for Kansas City. The original plaza was designed by ASAI Architects, KC with a renovation by Smith and Voucher with Bowman, Bowman, Novick (Kansas City) in 2008. The terminal includes the "William T. and Charlotte Kemper Memorial Fountain," also known as the 10th Street Fountain. The designer of the fountain is Laurie Doolittle, Kansas City and Alvin Holm. The fountain was dedicated in 1999. The City of Fountains Foundation maintains the fountain.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

James M. Kemper, Sr. chairman of the board of the Commerce Trust Company commissioned Wheeler Williams, the internationally noted New York sculptor, to create a fountain and sculpture in memory of his son, Lt. David Woods Kemper who was killed in WWII while serving as a platoon commander. The monument also included improvements to Main Street between 8th and 9th streets. Hare and Hare, the noted landscape architects and John Murphy, from the firm of Keene, Simpson & Murphy, collaborated with Williams. The Muse of the Missouri appears to be eligible for listing in the National Register of Historic Places under Criterion C for Art. Designed by Wheeler Williams, it is an exceptional example of the work of this artist.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

Piland and Uguccioni, *Fountains of Kansas City*.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

The Muse of the Missouri is sited on a median strip between 8th and 9th and Main Street. The surrounding buildings are mostly from the 1960s and 1970s, part of the Downtown Redevelopment Corporation's plan for the area.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

The female Muse weighs approximately 2,500 pounds with a mesh made of bronze wire. There are nine fish depicted, created as a "hybrid" of the body of a carp with the head of a bluefish. "The net of fish is the subject of her realm," directly relating to classical mythology.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

Designed by Charles Luckman, LA, architect and constructed in 1966-1969, this parking garage is associated with Ten Main Center (see Inventory form for 910-920 Main Street). It appears to be eligible (in the very near future) in the National Register of Historic Places under Criterion C in the area of Architecture. Associated with Ten Main Center, this parking garage is a fine representative example of the work of Charles Luckman in the International Style. While not quite 50 years old, by the time the Downtown Streetcar project is completed, this property will become eligible for listing.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

It is the first of its kind in Downtown Kansas City. It links communities, parks, and exciting destinations with unique new venues and dramatic public artworks. Historical markers along the Trail will create a journey through the early history of this region. As such, the Trail will enhance bi-state Kansas City's historic, cultural and recreational treasures. The Trail will help our community gain access to our spectacular rivers, improve the community's quality of life and stimulate economic development.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

Riverfront Heritage Trail, Inc.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

The Riverfront Heritage Trail is a fully accessible ten-mile bicycle and pedestrian pathway that begins at the riverfront and winds through the oldest and most historic parts of bi-state Kansas City.

ARCHITECTURAL/HISTORIC INVENTORY FORM

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

Constructed c. 1880, the building was originally the location of Roach and Musser Manufacturing Company, makers of wood windows and sashes. In 1909 it was the location of the Montgomery Ward general warehouse. The Roach and Musser Manufacturing Company Building appears to be eligible for listing in the National Register of Historic Places under Criteria A and C for Commerce and Architecture under the MPS "Railroad Related Historic Commercial Industrial Resources in Kansas City, Missouri." Along with the properties at 2100 and 2020 Walnut, this building fits the historic context and registration requirements as stated in the MPS.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

Sanborn Map Company, 1895, Vol. 3, Plate 252; 1909 Vol. 3, Plate 341.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

The building is located near railroad spurs to the south. Belger Company is located to the south and Superior Moving Company is located to the north. A surface parking lot is located to the east.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

The main façade faces east. The first story features multiple entrances that haven boarded up for security. Second and third-story fenestration also has been boarded-up. Third story fenestration is segmental arched.

ARCHITECTURAL/HISTORIC INVENTORY FORM

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

It appears that this building was built for Sam Gross. While the building permit states a construction date of 1909, the building appears in a 1906 Sanborn Map. This building appears eligible for listing in the National Register of Historic Places as a contributing resource to the Old Town Historic District under Criteria A and C in the areas of Commerce and Architecture. It relates to the historic context and architectural significance as stated in the Old Town District National Register Nomination.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

Building Permit No. 46960, Kansas City, MO. Sanborn Map Company, 1906, Vol. 1, Plate 7.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Located to the west of the Old Town Historic District in an area of late 19th and early 20th century commercial buildings.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

The main façade faces south. Two single leaf doors set in storefronts flank a non-original one-bay opening. The upper story fenestration is one-over-one sash with stone sills and corbelling. Other features include wide transoms and stone coping.

ARCHITECTURAL/HISTORIC INVENTORY FORM

ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

In 1895 the building was the location of a coffee and spice mill business and a harness and fire supply business. The property later merged with Chase Bag Company's other properties. This building appears eligible for listing in the National Register of Historic Places as a contributing resource to the Old Town Historic District under Criteria A in the area of Commerce. It relates to the historic context and architectural significance as stated in the Old Town District National Register Nomination.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

Sanborn Map Company, 1895 and 1939. Building Permit No. 73182, Kansas City, MO

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Located directly west and south of the Old Town Historic District, listed in the National Register, on a major thoroughfare.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

The main façade facades south. The storefront windows and the upper story fenestration was the result of a 1921 remodeling.
