DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This two-story building has a concrete frame, brick walls, and a flat roof. The exposed concrete frame creates three bays on the front (south) façade. Brick fills the historic window openings on the south and east facades. These narrow and high window openings remain visible. There are several vehicular entrances on the south and east facades.0

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer: Manuel Morris
Contractor/builder/craftsman Flett Construction Co.
Developer:
Original Owners: L. Yukon & Sons

L. Yukon & Sons Produce Company owned several buildings with storefronts for wholesale produce in the 400 block of Walnut Street prior to constructing this warehouse in 1956.

Kansas City Register: **Date:**

National Register: **Date:**

Register Status or Eligibility Contributes to district

Eligibility Comments:

This building retains integrity and communicates associations with its historic function and the commercial development of the district.

DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This small, one-story building has a concrete foundation, painted brick walls, and a flat roof. The northwest corner of the building is canted. The windows and doors are not historic, but the historic masonry openings remain visible. A non-historic standing seam metal awning covers the storefronts.

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer:

Contractor/builder/craftsman William Karnopp

Developer:

Original Owners: Phillips Petroleum Company

A filling station was first constructed on the site in 1922 by A. H. Marum. Phillips Petroleum Company constructed an addition in 1935, but rebuilt the entire service station in 1939.

Kansas City Register:

Date:

National Register:

DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This two-story building has brick walls and a flat roof. The banded windows on the first story are not historic. The second story has several single windows. A portion of the second story has a standing seam metal hipped roof. It is unclear what alterations occurred when.

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer:

Contractor/builder/craftsman Rau Construction

Developer:

Original Owners: Muehlebach Brewing Company; Schlitz Brewing Company

This building was constructed as part of the Muehlebach Brewing Company facility. The complex was altered several times, especially when the Schlitz Brewing Company purchased the complex in 1956. The building was altered again in 1975. Rau Construction performed much of the alteration/construction work for the Muehlebach and Schlitz Brewing Companies. According to the 1939 and 1951 Sanborn Maps, the building was designated for Keg Washing.

Kansas City Register:

Date:

DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This one-story building has brick walls and a flat roof. Simple limestone shapes ornament the flat parapet. The non-historic buff brick façade at the storefront level and the windows and doors were added to the north elevation in 1980. The south and west walls are brick. The east wall is shared with the adjacent building, 500 Grand Boulevard.

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer: Unknown

Contractor/builder/craftsman J. Irwin

Developer:

Original Owners: Carrie Wolf

This building, constructed in 1927, replaced an earlier commerical structure with narrow storefronts dating back to before 1896.

Kansas City Register:

Date:

National Register:

Date:

Register Status or Eligibility Non-contributing to district

Eligibility Comments:

The interior and exterior were significantly altered with the replacement of the brick façade on the north elevation. The building no longer retains sufficient integrity to convey associations with its historic function.

DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This two-story brick commercial building has a stone foundation, stucco cladding, and a flat roof. The square building has a canted southwest corner. The first-story of the front (south) façade has four bays with a steel beam spanning the entire façade. Three bays were infilled with brick bulkheads and multi-light steel sashes. The center bay contains a single pedestrian door and an overhead garage door. The second story contains six single windows with 8/8 double-hung wood sashes. Stucco covers the entire façade including the second-story keystones, beltcourse, and cornice.

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer:

Contractor/builder/craftsman Earl Crews (1952)

Developer:

Original Owners: Michenfelder Poultry (1952)

The building was constructed after 1896. A one-story livery stands on the site in the 1896 Sanborn Map. The 1909 Sanborn Map shows a two-story building with a canted southwest corner and indicated as "Printing." The current first-story configuration was constructed in 1952. The second-story windows were probably altered at the same time. The 1/1 windows were removed, the taller window openings were filled and shorter wood windows were installed. The entire brick façade was covered with stucco. Michenfelder Poultry owned the building during the 1952 renovation.

Kansas City Register:

Date:

National Register:

Date:

Register Status or Eligibility Contributes to district

Eligibility Comments:

This building retains integrity and clearly communicates its historic commercial function. The alterations to the storefronts were made during the period of significance and have gained historical significance.

DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This three-story building has a diamond-shaped plan and a flat roof. The concrete building has brick walls and restrained stone ornament. The first story of the front (east) façade has large multi-pane windows and a round arched entry. A stone beltcourse runs along the front façade above the first story. The second and third stories do not have any windows. The exposed concrete frame is visible on the north and south elevations.

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer: Unknown

Contractor/builder/craftsman: Unknown

Developer:

Original Owners: Louis Singer

The angle of Grand (then Avenue) and the placement of the railroad spurs determined the diamond shape of the building. By 1939, the building was a wholesale produce and liquor company with its own railroad spur.

DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This one-story building has a concrete foundation, brick walls, and a flat roof. A concrete beltcourse encircles the building at the flat parapet. Glass block fills the large rectangular windows and concrete block fills the small square windows. The historic vehicular entrance at the northwest corner of the was filled with concrete block.

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer:

Contractor/builder/craftsman

Developer:

Original Owners: Muehlebach Brewing Company; Schlitz Brewing Company

A rectangular building occupied the south half of the lot by 1939. This smaller building had a steel frame and concrete floors and was used a bottling warehouse for the George Muehlebach Brewing Company. The adjacent building to the north was a one-story commercial building with two storefronts. By 1940, the building in its current form is visible in the city's tax photograph, occupying the space where the small commercial building stood.

Kansas City Register:

DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This two-story building has brick walls and a flat roof. The first story contains three storefront bays while the second story contains two narrow and three wide window openings. Geometric stone shapes and decorative brickwork ornament the stepped parapet and the spandrel panels between the first and second stories. Non-historic stucco panels fill the storefront openings and the second story windows. The center bay of the first story contains a large vehicular opening.

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer: E. O. Brostrom

Contractor/builder/craftsman: Charles Aiken

Developer:

Original Owners: Knoche Estate

A wholesale grocery company occupied the building by 1939, according to the 1939 Sanborn Map. A wholesale wine company occupied the building by 1951, according to the 1951 Sanborn Map.

Kansas City Register:

Date:

National Register:

Date:

Register Status or Eligibility: Contributes to district

Eligibility Comments:

This building retains integrity and clearly communicates its historic function and associations with its period of construction. The historic masonry openings remain visible despite the non-historic infill.

DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This three-story building has a concrete foundation, brick construction, and a flat roof. The building has a crenulated parapet. Non-historic stucco clads the historic brick walls. Stucco and glass block fill the wide historic window openings. The two large vehicular entrances and the tall pedestrian entrance with the decorative stone surround are historic, although the aluminum and glass storefront within the stone surround is not. The rear (east) wall is angled to create a covered loading entrance from the adjacent railroad spur.

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer: Rudolph Markynap

Contractor/builder/craftsman: K.C. Construction Company

Developer:

Original Owners: George N. Neff

This building housed the American Steel & Wire Company (1939 Sanborn Map) and the Hersey Wholesale Grocery Company (1951 Sanborn Map).

Kansas City Register:

DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This two-story commercial building has a canted northeast corner, buff brick walls and a flat roof. Storefronts lined the first story of the north façade. While the storefronts were filled with matching buff brick and narrow non-historic windows, the individual storefront openings remain visible. A band of glazed terra cotta tiles at the flat parapet has a simple Art Deco pattern. The historic masonry openings on the second story have non-historic fixed windows with metal frames. The interior spaces retain their historic pressed tin ceilings intact. Openings were cut in the frame and plaster walls to connect the narrow storefronts.

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer: J. Marra

Contractor/builder/craftsman: S. Patti Construction Company

Developer:

Original Owners:

The building at 500 Grand, constructed in 1927, replaced an earlier commercial structure containing a series of narrow storefronts that date to before 1896. The current building has significant associations with the Kansas City political scene in the 1920s and 1930s. The second story originally housed the North Side Democratic Club. The configuration of the second floor is largely unaltered and retains its historic pressed tin ceiling.

Kansas City Register:

Date:

National Register:

Date:

Register Status or Eligibility: Contributes to district

Eligibility Comments:

While the first-story storefronts and second-story windows were altered, the historic masonry openings remain clearly visible and the interior storefront configuration is intact, as are the historic pressed tin ceilings.

DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This one-story garage building has brick walls and a bowstring roof with steel trusses. The front (east) façade is set back from the street to provide space for gas pumps. The pumps are not extant. The front façade contains five large bays, each infilled with buff brick and a non-historic window. The stepped parapet has concrete coping. The interior contains a small office at the front of the building while the rest of the building is open garage space with a concrete floor. The building immediately abuts other building on the north and south sides, and an alley on the west side.

HISTORY AND SIGNIFICANCE:

DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This one-story building has brick walls and a flat roof. The front (east) façade has a paired door and three non-historic windows.

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer: Unknown

Contractor/builder/craftsman: Flanagan Bros. Mfg. Co. (1911)

Developer:

Original Owners: James Nevine (1911); Joe Travalent (1941)

The current building (512-518 Grand) is an amalgamation of three separate properties that have been renovated, altered, and combined several times over the course of their history. Buildings are present on the site in the 1909 Sanborn Map. In 1941, a large addition was constructed at the rear of 512 Grand and the second story was removed from the two-story 516 Grand. In 1975, the current brick façade was added to unify the building.

Kansas City Register:

Date:

National Register:

Date:

Register Status or Eligibility: Non-contributing to district

Eligibility Comments:

Due to the façade addition in 1975, this building no longer retains integrity to convey its historic commercial function or associations with surrounding commercial development. It does not contribute to the district.

DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This two-story building has brick walls with stone trim, and a flat roof. The trapezoidal building has a canted southeast corner containing the main entrance to the building. The east elevation contains one storefront bay and four small windows. The south elevation contains four storefront bays. The second story on each elevation contains single windows. The windows and storefronts are filled with brick or plywood panels. Geometric stone trim and stone beltcourses ornament the facades above the storefronts. The second-story lintels are stone. The stepped and peaked parapet has stone coping. The stone nameplate above second story window on the canted corner is inscribed "Muehlebach." Red tile bulkheads remain visible in the two storefronts flanking the canted entry.

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer:

Contractor/builder/craftsman

Developer:

Original Owners:

Although a two-story commercial building with multiple storefronts appears on the 1909 Sanborn Map, this building with a canted southeast corner does not appear until the 1939 Sanborn Map. This building has been Wholesale Liquor and Liquor Storage (1939 Sanborn), and Wholesale Paints (1951 Sanborn).

Kansas City Register:

Date:

National Register:

Date:

Register Status or Eligibility Individually eligible

Eligibility Comments:

This building is too isolated to be considered contributing to a historic district. It retains integrity and potentially has the historical significance to be individually eligible.

DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This one-story garage building has a concrete foundation, brick walls, and a bowstring roof with steel trusses. The front (east) façade has one pedestrian entrance with a metal slab door and one vehicular entrance with a metal overhead garage door. The stepped parapet has concrete coping and obscures the curve of the bowstring roof. The remaining façade is solid brick. This façade is not historic.

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer:

Contractor/builder/craftsman W. H. Wilson (1926)

Developer:

Original Owners: J. Rosenbalum (1924); Monark Gas & Oil Co. (1926)

The building was built as a public garage in 1924. Owner Monark Gas & Oil Co installed a gasoline pump and tank in 1926. The 1940 tax photograph shows the front façade having two large arched openings at the center of the façade. The north opening contained a vehicular entrance and the north opening contained a storefront. Storefront openings with flat lintels flanked the arched openings. Minor alterations to the front occurred in 1965, including cutting new double exit door in front. It is unclear when the entire façade was rebuilt, removing the historic arched openings and decorative brickwork.

DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This large building occupies nearly the entire east half of the block along Locust Lane between E. 5th Street and E. Missouri Ave. The north half of the building is one story with brick walls and a bowstring roof. This portion of the building was built in 1950. The aluminum windows with fixed and hopper sashes and entries are not historic. A shed-roofed second story was added to the northeast corner of the building. The south half of the building, new construction, is four stories with synthetic cladding and has an irregular plan to accommodate multiple dwellings.

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer:

Contractor/builder/craftsman

Developer:

Original Owners: The White Motor Company

The original one-story brick building with a bowstring roof ran the entire length of the lot along Locust Lane between E. 5th Street and E. Missouri Ave. The White Motor Company constructed the building for its Truck division in 1950. The south end of the building was two stories and had bands of buff brick surrounding groupings of individual multi-pane windows. (MVSC Image Gallery - White Motor Company photograph, 1950). The south half of the building was demolished and rebuilt as a four-story building with multiple dwellings (condos) in 2005.

DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This two-story building has brick walls, a stone foundation, and a flat roof. The second story has a row of single windows with limestone sills and lintels. The first story was altered in 1953 with the construction of a brick façade covering the first story. Openings were cut for windows and a vehicular entrance when the façade was added. Limestone beltcourses run along the front (south) façade above the first and second stories. The parapet has limestone coping and two small peaked areas with small, filled oculi. A limestone nameplate centered on the front façade is inscribed "C. DeFeo."

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer: J. G. Luncieri (1913); A. E. Norton (1953)

Contractor/builder/craftsman: G. T. Bernstein (1913); Jesse C. Hastings (1953)

Developer:

Original Owners: C. DeFeo (1913); Kay See Dental Mfg Co. (1953)

This building was constructed in 1913, the permit issued two weeks before a permit was issued for the building at 112 E. Missouri, for the same cost.

Kansas City Register:

Date:

National Register:

Date:

DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This one-story building has brick and concrete block walls, and a flat roof. The building has an irregular plan with two tall vehicular bays at the center of the north façade. The recessed main pedestrian entrance just east of the vehicular bays contains a single door with sidelights and flanking windows. The low wings on the east and west ends of the building contain single windows. The historic metal windows have two fixed upper sash and a lower hopper sash. A concrete name plate above the main entrance is inscribed "Fire Station No. 25."

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer: R. W. Fink
Contractor/builder/craftsman Sam Dasta & Sons
Developer:
Original Owners: City of Kansas City, Missouri

The building was constructed as Fire Station No. 25 and remains as such today.

DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This two-story building has a concrete foundation, brick walls, and a flat roof. A concrete beltcourse encircles the building above the second-story windows. The single-pane fixed windows are not historic but the wide masonry openings with brick sills are. Brick and decorative concrete blocks fill the window openings on the first story.

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer:

Contractor/builder/craftsman

Developer:

Original Owners: Muehlebach Brewing Company; Schlitz Brewing Company

This building was possibly constructed new in 1939 for Muehlebach Brewing Company. It has architectural features similar to the building at 303 Grand, also built in 1939. The property was altered several times in 1956 when Schlitz Brewing Company purchased the complex. Rau Construction performed much of the alteration/construction work for the Muehlebach and Schlitz Brewing Companies.

DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This one-story building has a stone foundation, brick and concrete block walls, and a flat roof. The front (east) elevation contains a single pedestrian door. Brick fills the large vehicular opening in the front façade.

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer:

Contractor/builder/craftsman Rau Construction

Developer: Schlitz Brewing Company

Original Owners: Muehlebach Brewing Company; Schlitz Brewing Company

This building was constructed before 1939 with a stone foundation and brick walls. The building pictured in the 1940 tax photograph has a stepped and crenellated parapet with decorative brickwork. The building had a large vehicular entrance at the center of the east façade and flanking single windows. By 1951, the building had a small rectangular addition on the south side of the building, set back from the street, and housed beer storage for the George Muehlebach Brewing Company. This building was razed to its foundation in the 1950s and a new brick and concrete structure was built. The stone foundation was cut for a wider vehicular opening. The opening was later filled with brick.

DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

ADDITIONAL PHYSICAL DESCRIPTION:

This one-story garage building has a concrete foundation, brick walls, and a bowstring roof with steel trusses. A simple stepped parapet obscures the curved roof on the front (east) façade. The front façade has five bays with two single window openings flanking a large center vehicular entrance. The window openings on the south side were filled with brick. The window openings on the north side were filled with stucco panels and retain their historic brick sills. A low, narrow loading dock extends southeastward from the southwest corner of the building.

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer:

Contractor/builder/craftsman Patti-Moore

Developer:

Original Owners: Consumer Meat Products; Schlitz Brewing Company

This building was built as a private garage and continued as such through 1939 (1939 Sanborn Map). The building was a beer storage warehouse for the Muehlebach Brewery by 1951 (1951 Sanborn Map). The Schlitz Brewing Company purchased the entire Muehlebach complex in 1956. Schlitz added a loading dock to the south end of the building in July 1959, enclosing it two months later. The loading dock stood adjacent to a railroad spur and is currently extant.
