R. SIGNIFICANT PERSON(S) 1. 2. 3.					T. SIGNIFICANCE 109 Independence St is a one story concrete building with a flat roof. It shares a wall with the building to its left. It has an open ally to the right. The storefront has an inset glass door on both ends of the front façade with 2 angled storefront windows meeting in the middle. It is important to the area because it continues with the large storefront windows and glass door façade.

R. SIGNIFICANT PERSON(S) 1. 2. 3.					T. SIGNIFICANCE 115 Independence is a 2 story brick building with a flat roof. The building is flush with the other buildings on the block and shares walls with the neighboring buildings. The main entrance is similar to the other buildings with a large store front window next to a glass door. The entrance for the upstairs is located at the far left of the front façade. There are also 3 double sash windows placed symmetrically on the 2nd floor. The building also fits into the area because of the brickwork, which is similar to the majority of the buildings in the area. The roofline has terra cotta capping.

R. SIGNIFICANT PERSON(S) 1. 2. 3.				T. SIGNIFICANCE 15 N Main St has undergone a large façade transformation since it was first constructed. It is covered in concrete stucco, the building contains a very unique appearance compared to the buildings on the upper part of the street, however, similar to the buildings on the lower part of the street. However, it still manages to maintain characteristics unique to any of the other surrounding buildings of downtown Cape. It has a large metal flat awning extending over the sidewalk and the vertical metal strips to break the stucco into sections. The two story building stretches 50 feet along Main St and is covered primarily in a concrete stucco. There is one recessed door in the center of the building with two single pane windows on each side.

R. SIGNIFICANT PERSON(S) 1. 2. 3.				T. SIGNIFICANCE 17 N Main St extends for 31 feet along Main St, and was built in 1896. It has three large display windows and frontal pillars. Though it contains a few altered modifications, the building as a whole still manages to maintain its historical appearance. With the thin concrete belt course and wide frieze band. The two story building was built in 1896. The first floor is primarily recessed except for two pilasters at either end of the building. The three large display windows are slightly recessed with an awning attached, and a modern oak door is recessed further back at the north end of the building. A thin concrete belt course separates the first and second floor. The second story has for large one pane windows with thin concrete sills. There is a wide frieze band above the windows with decorative swag design and a dental cornice line above that. A flat brick parapet finishes off the façade at the top.

R. SIGNIFICANT PERSON(S) 1. 2. 3.				T. SIGNIFICANCE 19 N Main St is extremely unique compared to the surrounding buildings on the street. It has floor to ceiling display windows with a large recessed area in the center for the glass door entrance. The structure contains small decorative brick pattern forming a box on the second floor wall, again adding to the uniqueness of the building. A two story brick building, that expands 28 feet. The first floor is entirely floor to ceiling display windows with a large recessed area in the center for the glass door entrance, complete with a large awning. The second floor features four double hung windows with thin stone sills. Above the windows is a small decorative brick pattern forming a box on the wall. The roof line is parapetted with both sides slopping up to a point in the center.

R. SIGNIFICANT PERSON(S) 1. 2. 3.					T. SIGNIFICANCE 27 N Main St appears that it was two separate buildings; however, today it fs one large building. Even with its obvious remodeling of the interior, the exterior seems to still contain the appearance it once held historically. Covering 56 feet along Main St with brick façade with display window, the structure maintains a unique element that helps bring together the collective works of the surrounding buildings. With its seemingly Palladian window with a sunburst in the center of the northern side of the building. Covering 56 feet along Main St and the first floor has a lower course of brick roughly four feet tall with display window reaching the rest of the way to the ceiling. There is a wide recess in the center with multiple entrances and large brick pillar in the center of the opening. Above the wide awning, on he southern building there are four double hung windows with a small dental brick cornice line.

R. SIGNIFICANT PERSON(S) 1. 2. 3.				T. SIGNIFICANCE 29 N Main St is a two story structure, spanning 29 feet along Main Street. The front façade of the building contains an entrance with a store front display window. It uses the typical style of architecture of the downtown Cape area. The second floor windows have been covered with shutters. The entire first floor is recessed with the front entrance recessed even further than the display windows that span the façade. There is a large metal awning covering the sidewalk with vertical black marble slats above that. There are three large openings on the second floor which have been covered with shutters. The middle opening is slightly taller with a wrought iron balcony below it. A separate roof extends down from the roof line and is covered in Spanish tile.

R. SIGNIFICANT PERSON(S) 1. 2. 3.				T. SIGNIFICANCE 31 N Main St extends for 31 feet along Main St and is the shortest of the two story buildings on the block. With its slightly recessed first floor with four wooden-door entrances, the now Jewelry store, maintains the commonly used architectural style of the downtown area. The first floor is recessed slightly with four wooden-door entrances on the northern end and a single glass-door entrance with floor to ceiling display window recessed further back on the southern end. The second floor is fairly plain with only four small double hung windows with brick sills across the front and a small parapet in the center of the roof line. <input type="checkbox"/> See Continuation Sheet

R. SIGNIFICANT PERSON(S) 1. 2. 3.				T. SIGNIFICANCE 33 and 35 N Main St spans 40 feet of the street and, it is labeled and addressed as two separate businesses with two separate addresses, but is still one whole structure. Though the brick structures have been altered and separated to hold two stores as opposed to one, the building still maintains its original appearance. There are several elements that are in need of repair. Most importantly the building contains five decorative brick rectangles along the cornice line left from the original construction. Standing at two stories, the two store fronts are recessed with two floor ceiling display windows and a single entrance in the center. The southern entrance has a broken pediment above the door with pilasters on the sides, and the northern entrance is a simple glass door with transom light above it. There is a wide brick belt course above the two separate fronts and four large windows above that.

R. SIGNIFICANT PERSON(S) 1. 2. 3.				T. SIGNIFICANCE At 45 N Main St stands the one story building that stretches to the intersection of Themis St. Though it is considered one of the newer buildings on the block, the building itself sits comfortably next to the rest of the historic buildings of downtown Cape. With its outer and inner historical content, the building allows for the standing ambience of the town to flow together. With the floor to ceiling windows and recessed entrance with the two modern wooden doors. the building recognizably unique compared to the rest of the street. However, it still manages to possess the characteristics the downtown area holds. The building contains brick veneer with running bond brick and stretches 100 ft. There are floor ceilings windows all along the front, with a recessed entrance with two modern wooden doors. A larger awning stretches the length of the façade.

R. SIGNIFICANT PERSON(S) 1. Glenn Hutson 2. Lynn Hutson 3.				T. SIGNIFICANCE Hutson's Fine Furniture was opened by the brothers Glenn and Lynn Hutson in 1946. The building was built in 1955 and has since undergone expansions integrating the surrounding buildings. The store front is situated along Main Street and is important for the appearance and atmosphere of Cape Girardeau's historic downtown. The 2 story building's storefront is along Main Street and spans most of the block. The fixed sidewalk metal awning and storefront windows run the length of the building. There are 7 double pane sliding windows spaced along the second floor and a motorized rotating plastic and metal back lit sign mounted above the front entrance. There are two ancillary buildings that have been incorporated into the 43 South Main address. These buildings are located along Merriwether Street but are now connected to Hutson's main building.

R. SIGNIFICANT PERSON(S) 1. 2. 3.				T. SIGNIFICANCE The Merriwether Street Pumping Station located at the intersection of Merriwether and Aquamsi Streets constructed in 1958, is part of the Main Street Levee Improvement District. The single story building is a large room filled with equipment, and a smaller maintenance storage room as an attached wing. The building has 4 large elongated glass block windows, which are raised in a position to give the 2 story building a single story appearance. The machine room and storage room each have an entrance to the street. There is a metal awning over the machine room entrance. There is a horizontal band above the windows. The station has large electrical utilities attached to the rear exterior of the building. The building is constructed of red brick, which matches the neighboring buildings. Terra cotta capped roofline on the machine room roofline. The building is essential for housing machinery that helps in protecting Cape Girardeau's historic downtown area from flooding.

R. SIGNIFICANT PERSON(S) 1. 2. 3.					T. SIGNIFICANCE The one-part commercial block building at 20 N. Spanish was built c. 1966. The façade is constructed of stretcher patterned brick with a smooth cornice line topped with terra cotta coping. The original open front design allowed a maximum area of display windows for retail business. One of the longest tenants, the Dollar General Store, moved into the building in 1973. In 1999 the building was renovated and opened as the Bella Italia restaurant in 2003. The restaurant burned in 2005. While rehabilitating the interior of the building, the front façade was redesigned with a 15 foot setback to allow a patio which accommodates outdoor seating for the restaurant.

R. SIGNIFICANT PERSON(S) 1. 2. 3.				T. SIGNIFICANCE The single story commercial block located at 38-42 North Spanish was constructed in 1946. Four projecting brick piers separate the building into three commercial units. The first unit is currently an overhead garage door. The second and third units are shopfronts with glass display windows which angle toward the entrances. Both units are protected by awnings. The cornice is capped with limestone.

R. SIGNIFICANT PERSON(S) 1. 2. 3.				T. SIGNIFICANCE 10 South Spanish Street, built of brick, concrete, and cinderblock, is a 2 story building set in the historic downtown area of Cape Girardeau. It has many features similar to the historic neighborhood such as: large elongated windows along the second floor, flat roof and roofline, and modified storefront features. The original front entrance and windows have been replaced with stucco covered walls and inverted triangular glass blocks. The entrance, now on the side of the building, is an enclosed courtyard and garage. Although modified, the building holds an appearance that feels full of history.

R. SIGNIFICANT PERSON(S) 1. 2. 3.				T. SIGNIFICANCE The one story building located at 28 - 32 South Spanish Street was built in 1950. The building continues to house commercial businesses and retains the appeal of historic Cape Girardeau. The building's individuality is evident due to its location as it is one of the few remaining buildings situated between Merriwether and Independence Streets. The clay brick building materials and the flat roof blend well with the surrounding area. The building is divided into three equal storefronts, each with its own glass door entrance. The center and right storefronts have centered doors, the left has a door to the far right. It has an aluminum framed awning that spans the length of the building. The roofline is terra cotta capped. The large storefront windows of the building, which face Spanish Street, help the building to retain the quaint small town appeal.

R. SIGNIFICANT PERSON(S) 1. 2. 3.				T. SIGNIFICANCE 115 Themis was constructed in 1907 and destroyed by fire in 1938. The reconstructed two-story commercial building features contrasting colors of brick laid in a stretcher pattern. Four light-colored brick piers rise from the original limestone bases to the full height of the façade, while the remaining smooth brickwork is darker. The entrance to the building is located on the western third of the façade, flanked by single story Ionic columns resting on piers. Plate glass display windows cover the remaining first story exterior. The smooth upper story façade has 5 pairs of one-over-one double hung windows. Each bay has two of the pairs with the exception of the western entrance bay, which has a single pair of double hung windows. This bay also contains limestone blocks which are placed vertically and rise above the entry columns and stop approx. three feet from the cornice. A horizontal course of limestone reaches across the piers that frame this bay. A single square of limestone is centered approximately two feet above the window pair.

R. SIGNIFICANT PERSON(S)				T. SIGNIFICANCE					
1.				The building at 117/119 Themis Street is a two story brick commercial building with a corner entrance supported by cast iron columns and threshold. The first floor northern façade of the building has a triple brick arcade with two doorways flanking a window, each topped with a 1/2 circle fanlight window. The corner entrance and shopfront transom windows have been covered with wood planks and painted green. The corner shopfront lintel is delineated by two soldier brick rows. The western first story elevation has a pair of segmented arch windows and entry door. The second story addition is smooth unadorned brick with four 6 over 6 windows with brick sills on each elevation and the flat cornice is capped with terra cotta coping.
