R. SIGNIFICANT PERSON(S)				T. SIGNIFICANCE					
1.				This 19th century structure retains a high degree of integrity. With relatively few exterior alterations, this structure is a fine representative example of the vernacular architecture of this era. Given its architectural integrity, this structure may be eligible for inclusion on the National Register of Historic places.

II. SIGNIFICANT PERSON(S) 1. Henry L. Jones			T. SIGNIFICANCE In the fall of 1871 Henry L. Jones, a pharmacist and veterinarian originally from Illinois, established a drug store on the corner of Main and First St Fifteen years later, the business was moved to a building that sat in the N.W. corner of the old court house square (due west of the square today) facing the square. In 1913, with the moving of the square, the building was moved from facing south to face east toward the new court house.				
2.			The building its-self and the Jones's business is a part of local history and commerce. The building has retained its integrity of the original building and the addition of neon lights in the 1950's.

R. SIGNIFICANT PERSON(S)					T. SIGNIFICANCE The present county court house is the fourth for Cape Girardeau County. It was an adaptation by P. H. Weathers who also built a court house in Davies county with the same design. He also remolded the court house in Stoddard county using the same design as Cape Girardeau. Weather's design was used because of it was fireproof. The court house was finished in August 1908.

1.									
2.				<p>This building illustrates the typical pattern of commercial growth in an agriculture, agri-business based community in the early 1900's - 1920's. It is also a good example of the two-part commercial style of architecture. The facade features ornamental brick corbelling, segmental arched windows, and iron stars which cover the iron rods used for internal support.</p> <p>The rear facade features heavy wooden doors, iron shutter hooks, and irregularly placed windows with segmental arches. A keyhole on the upper story has been bricked in, but is still evident. The rough stone foundation is visible from the rear facade and the side of the building that faces the street.</p>

R. SIGNIFICANT PERSON(S) 1. 2. 3.				T. SIGNIFICANCE <p>This building is part of a row of commercial buildings on the main historic business district of Jackson, and illustrates the pattern of commercial development in the 1920's. It is also an example of typical storefront architecture, with brick string course, corbelled cornice. The second story features seven symmetrically placed bays, with segmental arches and stone sills. Windows are 1/1 sash type. The first story has been modernized, with plate glass display window, glass door with plain transom, aluminum awning and support posts, and aluminum siding which covers some of the brick work. However, this may be easily removed, which would then make this building a more compatible element of the proposed district.</p> <input type="checkbox"/> SEE CONTINUATION SHEET

R. SIGNIFICANT PERSON(S) 1. 2. 3.				T. SIGNIFICANCE This building will be considered significant in the area of commerce due to its location and building date. It is situated on High Street in a row of buildings of similar construction and function. However, due to alterations, and aluminum siding on rear and front facades, this building loses its architectural character. It may be considered contributing due to the commercial aspect, but further study is needed to determine significance.

R. SIGNIFICANT PERSON(S) 1. 2. 3.				T. SIGNIFICANCE This building contributes to the pattern of commercial development of Jackson, and is typical of the long, narrow storefronts characteristic of the 1920's. Iron decorative molding along the roofline indicates that this building is similar to others along High Street in design, but the facade is covered by aluminum siding, making it necessary to consider this building a non-contributing element at this time.

roof. The top of the facade is a brick parapet wall. The front facade is symmetrical and has a single glass door in the center of a recessed entrance. There are three large fixed windows on each side of the entrance. Above the windows, the facade is covered with large square plastic or fiberglass panels. Above this, the facade is brick to the parapet wall. Ceramic tiles cap the parapet wall. The building has no trim.

The sign is plastic and is suspended from a metal pipe that projects from the wall. This pipe is braced by wire.

R. SIGNIFICANT PERSON(S)			T. SIGNIFICANCE				
1.			<p>The original owner of the Welling home, Joseph Frizel, was a civil engineer who helped plan the lay-out of the city of Jackson. Frizel's wife, Sarah Bollinger, was the only child of George Frederick Bollinger who was commissioned as a lieutenant colonel of the militia in 1820 by William Clark.</p> <p>The original part of the house was considered a departure from other early homes in the area, as different construction methods were employed.</p> <p>The two-story addition, built by Charles Welling, was a gift to his wife Elizabeth, who had been born in the original house in 1820.</p> <p>The first Masonic lodge west of the Mississippi was organized in the parlor of the Welling home,</p>

REFERENCE NUMBER	A HISTORIC NAME	B COUNTY	C ADDRESS
	Welling Home	031	209 W. Main
<p>2.X. The Welling Home is comprised of two sections. The single-story section, built in 1818, has a gable roof with the ridgeline running east to west, and a plain brick central chimney. The two-story section, added in 1838, has a front gable roof with the ridgeline running north to south, and two internal side chimneys with plain caps. The front facade contains eleven bays. The windows on the facade of the two-story part are 9/6 double hung sash types; those on the single-story part are 6/6 double hung sash. There is also a fifteen-light rectangular window directly under the gable of the two-story part. The main front door is paneled, with wood molding and entablature, seven-light transom, and four-light sidelights. The door to the original one-story section is plain, with an aluminum storm door. While the original section has beaded siding, the newer part has beveled siding. The house sits on a stone foundation, which has been damaged by part of the foundation's removal in order to form a garage under the house. Two enclosed porches have been added to the rear of the house.</p> <p>2.Y. The house is surrounded by commercial buildings, with residences mixed, near the downtown business district.</p> <p>T. The Welling Home is considered to be significant for its architecture. It is one of the older homes in the Jackson area. The original part especially could provide information on construction techniques of vernacular residences.</p> <p>(cont'd.)</p> <p>In 1818, Alexander Buckner served as first Worshipful Master of Unity Lodge #6, with Joseph Frizel as Junior Warden,</p>

R. SIGNIFICANT PERSON(S)				T. SIGNIFICANCE					
1.				This property is potentially significant as an individual National Register nominee. The property has remained unchanged on the exterior since its construction in circa 1940. Also, the property could possibly derive significance from its function as the working office of the mineral extracting company that supplied marble and granite for the construction of area buildings.

1. Penney, Walter D. and Susie A.			<p>This house is significant because of its affiliation with German ethnic heritage and its contribution to a business historic district. The Voges' who probably built house were probably from Germany, for their grandson, Leroy Abernathy remembers them as gros mama and gros papa instead of grandmother and grandfather.</p> <p>This house is a good example of a typical residence around the turn of the century It has some local significance, for a town marshall, Henry A. Voges, and a doctor, S.E Woods owned the property. It would contribute to a historic district which could include the downtown businesses in Jackson.</p>

REFERENCE NUMBER	HISTORIC NAME	COUNTY	ADDRESS
	Voges, Henry A.	Cape Girardeau	215 West Washington

Walter D. Penney and his wife Susie bought the property from the executor, James Seibert, of the estate of James McGuire on May 13, 1880. Walter D. Penney sold the property to Eliza Williams on March 21, 1883. The property next appears in the Henderson W. Howard estate. Dr. S.E. Woods and Maggie E. Woods bought the property in January of 1906. The Woods sold the property between 1906-1912 to W. F. Schade and N.J. Schade. The Schades sold the property to Henry A. Voges on September 23, 1912. Henry A. Voges and Louise Voges owned the property until August 10, 1938 when they sold it to the current owner, Retta Seibert. Henry Voges and his wife sold the house to live with one of their daughters in 1938.

Henry and Elizabeth Voges has a daughter named Bertha Voges. Bertha married an Abernathy and gave birth to a son, Leroy, in the front bedroom of the house.

This house used to have a wood stove in every room. It also has a carved wooden staircase.
