

Blackwater Residential Historic District Proposed Boundaries

Based upon a reconnaissance level survey by Debbie Sheals
August 2007

"C"-- Properties with *potential* to be contributing to the district. Note that several of those buildings would need to have modern changes reversed to be counted as contributing in a final district. See the information forms for more information on suggested changes. Final boundaries will be contingent upon which properties see appropriate changes.

"NC"-- Properties that are either too new or too severely altered to contribute to the historic district.
