Mrs. Bienvenu was contacted by this surveyor and indicated that the Bienvenus were not interested in the Historical Site Survey or the Natl. register. To have the property inspected and photographed would be greatly inconvenient.

Mr. Paul Cheavens, longtime resident of Boone County, states that that the Bienvenu House is constructed of logs and was formerly known in the area as the Macaja Proctor Estate. (see photos taken from the roadway)

History of Building and Location:

The log house was built by the Young family. The Youngs had their origin in Bath County, Kentucky. John A. Young, the son of Original and Dorcas Young, left Bath County and settled in Callaway County in 1834. In 1858, he married Elizabeth Brooks. By 1876 he owned 240 acres in Callaway (160 in section 22, and 80 in section 15 directly above). No original deed for the land could be found and the first record of it in deeds appears when the estate of John A. is divided among his survivors, and the house is present at this time. According to the old Atlases of Callaway County, the mark indicating a house in the correct location appears in the 1897 publication and not in the one of 1876. In 1876 there is another spot on the property in section 15 marked as a building. It can be assumed that the log house was built between 1876 and 1897, though probably closer to 1876. The Young property was divided between T.J. Young and C.C. Young, later passed on to C.R. Young, who mortgaged it in 1931, and finally was foreclosed in 1940, when William Woods bought it. The U.S. Forest Service bought it from William Woods (College).

Stylistically the cabin is ultimately of German origin, the "notch & saddle" joint used in combination with logs squared on all four sides being one of the types brought over by the Germans in 1710 to Pennsylvania. The style apparently spread to Fayette County, Kentucky, where it became the prominent mode of log house building, as seen in houses dating from 1787 to 1823. Also seen in Fayette county was the combining of the English tradition of having chimneys at the end with the German squared log and notching technique. Some very close prototypes of the Young house can be found in Fayette county, for example, the Muldrow House, built in 1787.

Fayette County is located very close to Bath County, and the Youngs probably lived in Bath County for two generations before John A. migrated. Where along the line the protruding ends of the logs were dropped--these are found usually on the earlier German buildings and also in Fayette county(though frequency is unknown)--- is uncertain. It is conceivable that John A. brought this building tradition with him from Kentucky, though why he waited so long to build it is unknown.

From: "Preliminary Study of Early Central Missouri Farm Dwellings" by
LOG HOUSE IN CLARK FOREST Kieth Cunningham, July 18, 1969

(Total report on file at Survey Office)

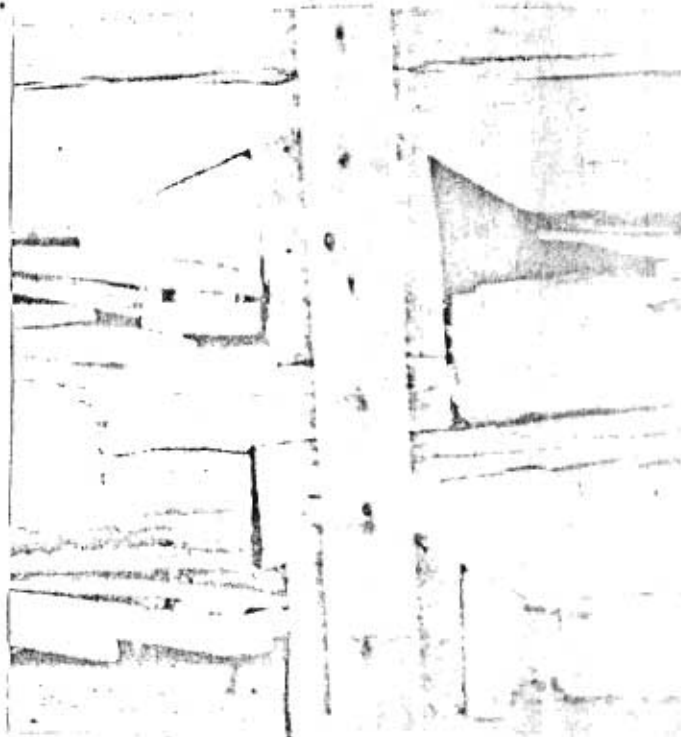

I. Observation (June 29, 1969)

- A. Located in Clark Forest east of Island, Missouri, on Y.
- B. A four-room log house, two up and two down, with large stone fireplace at each end of house.
- C. First room down plastered and papered; second room has wainscoting floor to ceiling and covering ceiling apparently at one time painted a rich, vibrant blue.
- D. The rafters are unhewn poles and butt together without a ridge pole.
- E. Chinking is with scraps of wood with mortar.
- F. The sills are hewn logs.
- G. The house has an unusual interior log wall so that some of the logs making up the outside wall are joined three ways in a T formed notch.
- H. The house was at some time covered with siding which was apparently last painted apple green.

Columbia, Missouri 65201

As discussed with Mr. Deon Wells, we are enclosing the abstract of title for the land on which the potentially historical log cabin in Callaway County is located.

We hope this will be of some value to your project.
Please return the abstract to us when you have finished with it.

Office of the Attorney General
Washington, D. C.

July 8, 1940.

Honorable Henry A. Wallace,
Secretary of Agriculture,
Washington, D. C.

My dear Mr. Secretary:

A re-examination has been made of the title data relating to 160 acres of land, more or less, Tract No. 238, Cedar Creek Forest and Pasture Project in Callaway County, Missouri. This land is conveyed to the United States of America under the provisions of Title III of the Bankhead-Jones Farm Tenant Act (50 Stat. 522), by The William Woods College for Girls of The Christian Church of Missouri, under deed dated May 14, 1940, and recorded among the land records of said county on May 15, 1940, in Book 121 of Deeds at page 94. Your reference is No. LU-MO-39-21-238, and the file number of this Department is 33-107-26-24.

The land is described in the aforesaid deed, which recites a consideration of \$1,000.00.

The abstract, consisting of 54 pages, was last satisfactorily certified on May 31, 1940, by D. G. Spencer, Abstractor.

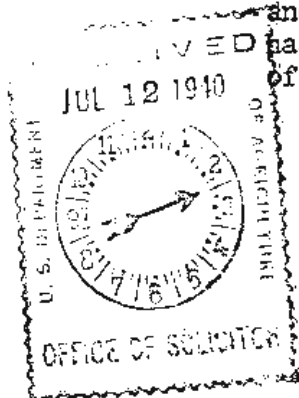

The abstract, recorded deed, and accompanying data disclose valid title to be vested in the United States of America, subject to the easements for all public roads and highways running through the land which your Department has determined will not interfere with the contemplated use of the land.

The abstract, deed, and related papers are enclosed.

Respectfully,

Robert H. Jackson

Attorney General.

) legacy

Now comes Jas C Reynolds executor of the last will and testament of John A Young deced and presents his final settlement of said estate together with proof of the due publication of final settlement notice required by law which is by the court examined approved and ordered to be filed and recorded, Said settlement showing a balance in the hands of said executor of \$10²⁷. The court finds that all demands allowed against said estate have been paid and costs and expenses of administration. Also that Thos J. Young, Arvilla S Young, Charles C Young and Benjamin F Young legatees of specific bequests in and by the last will and testament of said testator have filed with the papers of said estate in the office of the Clerk of this court their written receipt and acknowledgment, wherein they acknowledge that they receive from their father the said testator during his life time but after the writing of his will the specific property

will to them in said will. And it now appearing to the Court that all bequests in said last will and testament have been paid and satisfied excepting one to Charles S Young grand son of testator of ten dollars, it is therefore ordered that said executor reserve the sum of .77 cts for future expenses and pay over to the said Charles S Young the said sum of \$10⁰⁰ and report his proceedings under this order to the Court with all convenient speed.

This is a detailed topographic map of Boone County, Missouri. The map shows the Missouri River flowing along the northern and eastern borders. To the east, Callaway Creek is visible, with arrows indicating directions 'TO COLUMBIA' and 'TO FULTON'. A black arrow points to a specific location on the Missouri River, near the town of Elston. The map includes a grid system with townships (T. 45N, T. 46N) and ranges (R. 12W, R. 13W) marked. Various towns and landmarks are labeled, including Marion, Center Town, Elston, and Schuggs. The map also shows the Pacific Railroad and other local roads. The title 'BOONE COUNTY' is prominently displayed across the top.
